

BT MeetMe Global Access[®]

With less travel and faster decision making audio conferencing can offer businesses a way to respond to day-to-day challenges, quickly and effectively, ultimately helping to increase productivity and gain competitive advantage. BT MeetMe Global Access is a great way to bring members of the sales, finance, human resources and IT, or any other 'virtual' team together, instantly. Our service availability means that participants from more than 45 countries can meet anytime for the cost of a local call.

BT MeetMe Global Access Overview

Arranging meetings can sometimes be frustrating. Imagine, you're a manager with a team of 15 people, who are based in London, New York, Madrid and Sydney. There's an important new business initiative that you need to communicate to them immediately – how do you get them all together quickly and easily? Simple – use BT MeetMe Global Access audio conferencing.

BT MeetMe Global Access is an instant conferencing service that requires only access to a phone to enable highly productive meetings with up to 40 participants worldwide. No prior booking is required and conferences can be established in the time participants take to call in. The service is easy to use, and it's available at any time every day of the year.

BT MeetMe Global Access allows people from more than 45 countries to join a conference by dialling local in country access numbers and international toll free (freefone) numbers. BT MeetMe Global Access eliminates the need for participants to remember international dialling prefixes and country codes while also reducing the cost of joining conference calls by saving them the cost of an international call.

BT MeetMe Global Access does not replace all traditional face-to-face meetings but complements them by bringing participants together without anyone having to leave their office. So whatever your role, less time is spent travelling, enabling faster and more responsive decision-making.

BT MeetMe Global Access benefits

With BT MeetMe Global Access you enjoy:

Increased productivity

Less travel and faster decision-making means increased productivity. With worldwide service availability participants from more than 45 countries can meet instantaneously, for the cost of a local call.

Competitive advantage

You can respond more quickly and effectively. Sharing information is made easier and informed decisions can be made regardless of the location of key individuals. It can also help you reach and work with customers and suppliers wherever they are, widening your customer base and tapping into new markets.

Ease of use

There's no need to book. All you need is a phone, landline or mobile. You don't need to be in an office to interact with colleagues, customers, suppliers and partners you can use your own personal meeting room. The chairperson and participants use the same dial-in numbers and passcodes for every conference call*.
