

One Source for Polycom

Complete management of your video investment

Clear, natural communications are a core element of business success. For over 20 years, BT Conferencing has been by providing a comprehensive platform of conferencing solutions that position you to overcome communication barriers, and keep pace in a global market.

With One Source for Polycom, the power of communication just got stronger. Polycom's HDX High Definition technology drives effective communications with a higher-impact conferencing experience. Enhanced resolution, improved audio quality, and advanced content sharing make it easier than ever to connect with your colleagues and customers.

One Source from BT Conferencing channels Polycom's technology into an easy to use HD platform, and provides the system readiness and reliability you expect. With a host of services that can be tailored to your specific requirements, BT Conferencing offers you the industry's only end-to-end platform for supporting high-performance visual communications. One Source can also reduce your costs with remote-centric support, which leverages BT Conferencing's reliable and intuitive system management tools.

To ensure we deliver the best solution for your conferencing needs, our team works closely with you to choose from the following One Source comprehensive range of services:
