

BT MeetMe Add-in for Microsoft® Outlook

Installation guide for IT managed deployments

This guide provides instructions for the deployment of the Add-in via an IT managed deployment to many users.

System Requirements

- Windows XP, Vista, or 7.
- Outlook 2003, 2007 and 2010.
- An active BT MeetMe account.

Deployment instructions

- Download a zip file which contains the .MSI installers for Outlook 2003, 2007 and 2010.
<http://www.btconferencing.com/products-and-services/bt-meetme-audio-conferencing/downloads/>
- Read the “readme.txt” instructions contained in the zip file.
- Make sure the pre-requisite components (described in the read-me) are installed on target PCs before deploying the Add-in.
- Follow the instructions of the IT utility you are using to manage the silent installation.

Features

The Outlook Add-in is a tool that makes it easier to schedule, join, and monitor your conference calls.

- **Scheduling:** With just a couple of clicks, your conference details and Global Access numbers are automatically inserted into your Microsoft® Outlook calendar invitations and emails.
- **Joining:** When you are ready to join your conference, you can use the add-in to select a phone number to be called back on.
- **Monitoring:** The add-in enables one-click access to the web-based Desktop Controller, which provides real-time visibility and control over your conference.
- **Call start alerts:** Receive an alert on your desktop as soon as the first participant joins your conference.

Configuration

- After the Add-in has been installed, the user will be prompted to enter their chairperson and participant passcodes to login.
- The user's full list of available dial-in numbers will be downloaded and automatically synchronized every 12 hours.
