\*\* Bridging, feature, and network charges may apply

### Easy-to-use

BT's Video Bridging service makes communication and collaboration easier than ever. Our online tool, Engage Meeting Manager, allows you to schedule, launch, monitor, and control multipoint video conferences from your computer via standard web browsers, eliminating unnecessary hassles when scheduling conferencing activity across your organization.

### Reliable

With Video Bridging service from BT, you control conference call scheduling and call launching. The service is powered by Onward, BT's world-class video network management platform, which ensures smooth, trouble-free conferencing.

### Cost-effective

Take advantage of the free 30-day Video Bridging trial and enjoy the benefits of fully integrated video conferencing tools without the need to purchase, install, and support a costly conferencing infrastructure.

Offer expires 30th June 2010
